

## Special Issue

# Self-Assembling Materials for Next-Generation Biopharmaceuticals

### Message from the Guest Editor

Self-assembling materials have emerged as transformative platforms for advancing biopharmaceutical innovation. This Special Issue in *Pharmaceuticals* highlights cutting-edge research on the design, characterization, and clinical translation of self-assembling materials, addressing critical challenges in drug delivery, vaccine development, and regenerative medicine. Recent advances in computational and synthetic biology have enabled the precise design of self-assembling biomaterials with tailored structural and functional properties. Self-assembly as a transformative force in biopharmaceuticals. This Special Issue underscores the transformative potential of self-assembling materials in biopharmaceuticals, offering solutions to unmet medical needs through precision engineering and biomimicry. We look forward to receiving your submissions and to the valuable insights your research will bring to this Special Issue.

## About the Journal

### Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

*Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

---

### Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
