## **Special Issue**

## Nature Product as Potential Candidates to Improve Cardio-Metabolic Outcomes in Health and Disease

## Message from the Guest Editors

Chronic disorders such as diabetes, hypertension, and obesity have increased dramatically in the last decade, not only in developed countries but also in developing countries with growing economies. This Special Issue invites both reviews and original articles that elucidate the recent progress in natural products and their potential impact on cardio-metabolic health outcomes. In particular, natural products that have the potential to serve as drug candidates for cardio-metabolic diseases will be highly interested in this Special Issue. The collection of manuscripts will be published as a Special Issue of *Pharmaceuticals*. Topics include but are not limited to:

- Cellular targets and biological processes of natural products;
- Drug repurposing and/or synergism with natural products;
- Novel extraction technique and characterization of bioactives from natural products;
- Upcycling of natural products derived from food waste or unutilized plant parts;
- Effects of natural products and their mechanism of action in various cardio-metabolic diseases.

## **About the Journal**

## Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals*.

We hope to handle your contribution to *Pharmaceuticals* soon.

### Editor-in-Chief

### Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

### **Author Benefits**

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
