

Special Issue

Drug-Induced and Herbal Hepatotoxicity and Methods of Its Prevention

Message from the Guest Editors

Prescription-only medicines or over-the-counter drugs may cause liver function disturbances and liver tissue damage by a variety of mechanisms. Recently, the use of herbal formulations, sometimes from unknown sources, has increased gradually from year to year all over the world. In addition to the postulated and well-known benefits of such formulations, their liver toxicity is sometimes not well-established, which is an important field of research. Although the mechanism of drug-induced liver toxicity seems to be much better described, many newly recognized intracellular pathways are considered important in hepatotoxicity, which opens new possibilities for successful prevention and treatment. We invite authors to submit research articles and reviews on the topic of drug-induced or herbal hepatotoxicity and the currently available methods of its prevention, as well as future perspectives.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us. We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
