

Special Issue

Hybrid Molecules in Medicinal Chemistry: Design, Synthesis and Biological Evaluation

Message from the Guest Editors

This Special Issue, “Hybrid Molecules in Medicinal Chemistry: Design, Synthesis and Biological Evaluation”, aims to highlight contemporary advances across the full breadth of hybrid-molecule-based medicinal chemistry and therapeutic development. We welcome original research articles, reviews, communications and selected project or conference reports presenting innovative design concepts, synthetic strategies and biological or the mechanistic evaluation of hybrid molecules across diverse therapeutic areas. Submissions may include, but are not limited to, classical medicinal chemistry studies encompassing rational design, organic synthesis and biological evaluation, as well as structure–activity relationship (SAR) investigations, proof-of-concept studies and exploratory or translational research. Contributions integrating biological, biophysical, computational or systems-level approaches to characterise target engagement, mechanism of action or therapeutic potential are particularly encouraged. Studies employing established or emerging experimental and data-driven methodologies to support hybrid molecule development are also within scope.

Guest Editors

Dr. Tao Zhang

School of Food Science and Environmental Health, Technological University Dublin, Grangegorman, 7 Dublin, Ireland

Dr. John J. Walsh

School of Pharmacy and Pharmaceutical Sciences, Trinity College Dublin, 2 Dublin, Ireland

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us. We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
