Biomedical Applications of Fluorescent Gold Nanotechnologies

Message from the Guest Editors

Over the last decade, gold nanoparticles (AuNPs) have proven to be extremely convenient and invaluable tools for biological and biomedical applications.

Environmental factors such as pH level, ionic strength, and temperature have significant impacts on their fluorescence properties. Benefitting from these excellent properties, fluorescent AuNPs hold great promise in labeling, biosensing, bioimaging, and targeted cancer therapy applications, in vivo disease monitoring for early diagnosis of cancer, in vivo drug screening and protease activity determination, etc. The purpose of the present Special Issue is to present the latest advances in the field of gold nanoparticles for biomedical applications to improve the diagnosis and pharmacological treatment of several diseases via toxicological considerations of clinically applicable gold nanoparticles. Dr. Pascale Even-Hernandez

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us. We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
