

Special Issue

Sulfur-Containing Scaffolds in Medicinal Chemistry

Message from the Guest Editors

Sulfur is an essential element for life, whether for the growth and development of plants or for human health. Furthermore, sulfur substances, whether acyclic or heterocyclic, have a great impact on the search for useful substances in the treatment of numerous diseases. Currently, a large number of original scientific articles have been presented on this topic, exploring reactions that use sulfur compounds as a starting material and for biological applications that utilize their antitumor, leishmanicidal, antibacterial, antifungal, antimalarial, and trypanocidal activities.

Pharmaceuticals invites both reviews and original articles that present the historical importance of sulfur-containing compounds in medicinal chemistry, as well as the latest findings published. The collection of manuscripts will be published as a Special Issue of the journal.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us. We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
