Natural Products for Therapeutic Potential

Message from the Guest Editor

Natural products are a vital source of inspiration for therapeutic agents, with a rich history of providing novel leads for drug discovery. Plants, animals, and microorganisms have evolved complex bioactive molecules to adapt to their environments, many of which have potential health benefits. These natural products have been used for centuries in traditional medicine and continue to be a valuable resource for modern medicine. Despite the vast potential of natural products, challenges remain in their discovery, isolation, and development into effective therapies. However, advances in technology and interdisciplinary research collaborations are helping to overcome these hurdles. As the global demand for new and effective therapeutics continues to grow, natural products will undoubtedly remain a vital source of inspiration for drug discovery and development. Original and review papers are invited for this Special Issue.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us. We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
