Special Issue

Chemistry and Biomedical Potential of Marine Natural Products 2023

Message from the Guest Editors

The development of natural marine products as drugs, which began in the late 1950s, saw a real renaissance in the early 21st century when, supported by modern biochemical approaches, numerous compounds from the sea entered the pharmaceutical market. Although the development of a drug from a natural substance is a lengthy process and a challenge for the scientific community, today, thanks to interdisciplinary approaches, it is possible to exploit through fast and bio-sustainable methods the enormous potential that the chemical diversity of natural marine compounds offers us.

In this light, this new Special Issue aims to collect new contributions on i) novel compounds isolated from marine invertebrates and associated organisms that have shown interesting biological and pharmacological properties, ii) new insights into the mechanism of action of known bioactive marine molecules, and iii) strategies for a sustainable exploitation of marine product derivatives.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals*.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
