# Plant-Derived Nanotherapeutics and Nanocarriers: Recent Progress and Future Directions

# Message from the Guest Editors

Plant-based nanocarriers play an important role in several biomedical applications, ranging from drug delivery to tissue engineering. Their unique properties. such as the ease of their surface functionalization. natural abundance, high stability and cost effectiveness. make them ideal candidates for health care applications. Plants are an invaluable source of different types of molecules, which are recognized to have several therapeutic properties, due to their chemical and structural diversity and the biodiversity of their components. Nowadays, it is unquestionable that nature-based products have been, and will be, key players for the development of advanced pharmaceutical formulations. Therefore, this Special Issue aims to publish original research and review articles focused on the development of plant-derived nanotherapeutics and nanocarriers for the development of better approaches to precision therapy.

# **About the Journal**

# Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

#### Editor-in-Chief

#### Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Cièncias, Universidade de Lisboa, Lisboa, Portugal

### **Author Benefits**

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
