

Special Issue

HDAC Inhibitors

Message from the Guest Editor

Histone deacetylase inhibitors are clearly effective therapeutic tools in the treatment of cancers, particularly haematological malignancies. The purpose of this special issue is to provide the reader with a focused review of on the current place of HDACi as a therapy, particularly in blood cancers. We hope to provide a broad overview of the rationale behind their use, with specific papers focusing on diseases where they clearly have biological effects - NHL, Hodgkin disease, myeloid malignancies. Finally we hope to have two separate papers examining mechanisms of resistance and common toxicities.

I hope you will be able to contribute to what I see will be a valuable compendium of insightful reviews in this very topical subject.

Prof. Dr. H. Miles Prince

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter
