

Special Issue

Natural Products in Internal Diseases: From Preclinical Research to Clinical Translation

Message from the Guest Editors

This Special Issue focuses on exploring natural products and their therapeutic potential in the treatment of internal diseases. Natural products have long been a rich source of bioactive compounds with diverse pharmacological properties. We invite researchers to submit studies on topics including, but not limited to:

- The isolation and characterization of bioactive compounds from natural sources;
- The mechanisms of action of therapeutic effects of natural products in internal diseases;
- The development of novel formulations and drug delivery systems for natural compounds;
- Preclinical and clinical studies evaluating the efficacy and safety of natural products;
- Pharmacokinetics, pharmacodynamics, and toxicity profiles of natural compounds;
- The synergistic effects of natural products with conventional therapies;
- Studies leveraging artificial intelligence for drug discovery and the optimization of natural product therapies;
- The evaluation of phytotherapeutics in the context of traditional practices and their integration into evidence-based medicine.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
