Special Issue

Medicinal Plants: Exploring Plant-Based Bioactive Compounds for Cancer and Metabolic Diseases Prevention and Intervention

Message from the Guest Editors

We warmly welcome you to contribute to our Special Issue. This issue delves into targeting cancer and metabolic diseases with bioactive compounds derived from medicinal plants, advocating for tumor and metabolic disorders, including diabetes, dyslipidemia, obesity, MAFLD, and others, as well as prevention and intervention using these naturally derived remedies. Cancer is a complex and pervasive disease, representing a global health challenge. The disease characterizes the abnormal and uncontrolled proliferation of cells. On the other hand, metabolic diseases are non-communicable disorders that predispose individuals to an increased mortality rate. Therefore, this Special Issue aims to publish high-quality research and review articles to elucidate bioactive compounds' anticancer and metabolic-enhancing potential from medicinal plants, advocating for translational research addressing cancer and metabolic disorders prevention and intervention.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals*.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
