Lipid-Nanoparticle-Mediated Delivery of Small-Molecule and Nucleic Acid-Based Therapeutics

Message from the Guest Editor

Recently, LNP-based formulations of therapeutics are especially applied to transporting and effectively delivering mRNA vaccines to the cells. LNPs play critical roles in effectively stabilizing, protecting, transporting, and delivering these medicines to cells/tissues. In addition to the tunable size of LNPs, their lipid composition, surface properties, stability, and targeting capacities are critical parameters that need to be controlled and optimized for specific therapeutic needs for the treatment. This Special Issue of *Pharmaceuticals* focuses on new strategies and advances in LNP-based formulations of therapeutics using various forms of LNPs, including nanostructured LNPs, solid LNPs, and liposomes. We invite researchers to publish their original research and review articles with expert opinions and perspectives in the aforementioned areas.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
