Drug Candidates for the Treatment of Pain (2024/2025)

Message from the Guest Editor

For many years, opioids have been considered the cornerstone for treating pain. Since 2000, more than one million people have died from drug overdose, and three-quarters of drug overdose deaths in 2020 involved an opioid. This unscrupulous use of analgesics emphasizes the need for alternative drugs to treat pain. Ideal candidates should be both non-addictive and devoid of side effects. For this Special Issue, entitled "Drug Candidates for the Treatment of Pain", we seek the submission of manuscripts that focus on therapeutic novelties and the reasoned use of existing drugs with untapped potential.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
