

Special Issue

Neglected Mushrooms, Food Plants, Nuts: Functional Food Properties and Bioactive Compounds

Message from the Guest Editors

The current Special Issue on “Neglected Mushrooms, Food Plants, Nuts: Functional Food Properties and Bioactive Compounds” aims to encourage researchers to bring their attention to the latest discoveries in neglected mushrooms, food plants, and nuts. The topics covered will range from their nutritional value and chemical characterization, to their multifunctional applications as foods with beneficial effects on health, though their biological and pharmacological properties (antiaging, antibacterial, antifungal, antiviral, antitumor, antiparasitic activity, etc.). However, manuscripts describing uncharacterized extracts with studies of common activities (e.g., antioxidant properties) will not be considered. Review articles are also welcome, but will only be of interest if there is evidence of traditional uses and/or food value while the plants/mushrooms have not extensively explored for their chemistry and bioactivity.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
