Phytotherapeutic Applications in Colorectal Cancer (CRC) Management

Message from the Guest Editors

We are pleased to invite you to contribute to a forthcoming *Pharmaceuticals* Special Issue on “Phytotherapeutic Applications in Colorectal cancer (CRC) Management”, aiming to explore cutting-edge advancements and innovative research in the field of gene therapy and drugs as promising treatments for colorectal cancer. This Special Issue will cover a broad range of topics related to phytotherapeutic applications for colorectal cancer, including but not limited to the following: Development and optimization of gene delivery systems;

Therapeutic gene candidates and their mechanisms of action;

Preclinical and clinical studies on drug interventions;

Overcoming challenges in phytotherapeutic drug applications for colorectal cancer;

Biomarkers for patient selection and therapy monitoring;

Regulatory and ethical considerations in gene therapy drug development;

Molecular pathways as potential targets for phytotherapeutic drugs.

We welcome original research articles, comprehensive reviews, and case studies that contribute to a deeper understanding and advancement of phytotherapy for colorectal cancer.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us. We hope to handle your contribution to *Pharmaceuticals* soon.
