## Nano Drug Carriers 2021

### Message from the Guest Editor

In this Special Issue of *Pharmaceuticals*, research, mini-review, and review articles advancing our knowledge on nano-sized drug delivery systems are invited. Topics include, but are not limited to, theoretical and experimental research on the synthesis and development of nanocarriers or nanoformulations, their physicochemical and biological characterization, interaction of nanoparticles with the immune system, computational modeling of nanoparticle drug delivery, in vitro and in vivo studies, preclinical and clinical studies, as well as safety issues regarding their production, handling and disposal.

## About the Journal

### Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

*Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.
