Special Issue

Molecular and Cellular Studies of Natural Antioxidants as Potential Therapeutics for Cancer

Message from the Guest Editors

This Special Issue will present research and review papers concerning the development of novel pharmaceuticals and therapy strategies with natural antioxidants for anticancer research, which holds great future promise. Areas of interest include, but are not limited to:

Identification of new targets for natural antioxidants in cancer theranostics:

Evaluation of natural products with antioxidant and anticancer properties;

Evaluation of natural products with antioxidant and chemopreventive properties;

Exploring the relationship between oxidative stress and natural antioxidants;

The mechanism of antioxidant signaling in natural products;

Studies of natural antioxidant-derived compound development;

Prospective combination therapy with clinical drugs and natural products;

Prospective combination therapy with radiation and natural products.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals*.

We hope to handle your contribution to *Pharmaceuticals* soon.
