Plant and Marine-Derived Natural Product Research in Drug Discovery: Strengths and Perspective

Message from the Guest Editor

This Special Issue, “Plant- and Marine-Derived Natural Product Research in Drug Discovery: Strengths and Perspectives”, aims at gathering both original articles and comprehensive reviews related to natural product research, focusing on their vital role in drug discovery. Topics that will be considered include but are not limited to the following: isolation and structural elucidation of bioactive compounds from plants or marine organisms, in vitro or in vivo biological activities of secondary metabolites, synthetic strategies for plant and marine metabolites and/or analogs, hemi-synthesis of natural product derivatives with improved bioactivity, bioactivity of medicinal plant extracts and development of medicines, biological and pharmacological applications, essential oils with pharmaceutical interest, and bioactive compounds against neglected tropical diseases and cancer.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.
