Special Issue

Protein-Based Biomaterial for Pharmaceutical and Biomedical Applications

Message from the Guest Editors

Biological proteins are essential intra- and extracellular components for maintaining homeostasis in a wide variety of living organisms, and some of them have vital physiological activities. Several bioactive protein products, such as enzymes, coagulation factors, and hormonal preparations, have been developed and used in modern medical care contributing to human health and welfare. In addition, biological proteins such as albumin and immunoglobulin (antibody) have been used as biomaterials to solve clinical problems by taking advantage of their inherent structure and unique functions. This Special Issue of Pharmaceuticals on "Protein-Based Biomaterial for Pharmaceutical and Biomedical Applications" will include both original articles and reviews focused on protein- and biotechnology-based products/materials aimed for use in medicine, pharmaceutical, imaging, and diagnostic applications.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Cièncias, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
