

## Special Issue

# Recent Developments in the Medicinal Chemistry of Pyrroles

### Message from the Guest Editor

Pyrrole is a heterocyclic ring widespread in biologically active natural products and synthetic molecules. Pyrrole-based compounds exhibit a wide spectrum of bioactivity making such heterocyclic core a privileged scaffold and a versatile pharmacophore in medicinal chemistry. Due to their biological potential, pyrroles have gained great attention and they have been successfully used in the development of new derivatives. Some drugs containing pyrrole moiety are already available on the market while the rest are under clinical trials. In this Special Issue, authors are invited to submit original research articles, reviews, and short communications exploring recent advances in pyrrole-based medicinal chemistry. Topics of interest include but are not limited to antiviral, anticancer, antiprotozoal, antitubercular, antioxidant, and enzyme inhibiting activities.

## About the Journal

### Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

*Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

---

### Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
