# Peptide Biomaterials for Pharmaceutical Applications

### Message from the Guest Editors

Peptides are small molecules consisting of a couple or several amino acids coupled through peptide bonds. They have important uses in living organisms as hormones and chemical messengers and can be used for the design of novel therapies and innovative pharmaceuticals. The emergence of innovative engineered proteins, peptide biopolymers and peptidebased biomaterials for novel drug delivery, drug development, biosensors or tissue regeneration has encountered important challenges, such as their chemical and physical fragility (rapid degradation), poor or limited solubility and scarce permeability. The aim of this Special Issue is to offer to our readers an updated and comprehensive glimpse of the recent in vitro and in vivo uses of peptide-based biomaterials for pharmaceutical applications. We invite full papers, communications and reviews covering topics related to the keywords below.

# **About the Journal**

## Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

### Editor-in-Chief

### Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Cièncias, Universidade de Lisboa, Lisboa, Portugal

### **Author Benefits**

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
