Green Synthesis and Biological Applications of Metal Nanoparticles Influenced by Different Seasonal Periods

Message from the Guest Editors

Our Special Issue, entitled “Green Synthesis and Biological Applications of Metal Nanoparticles Influenced by Different Seasonal Periods”, provides an opportunity to evaluate the influences of seasonal variations on the yield, characteristics, reproducibility and applications of metal nanoparticles, which can be justified by climatic and environmental variations at a global level. Knowledge of these probable relationships between seasonality and the properties of metallic nanostructures will help researchers to modulate the optimum conditions using these particles in various fields of nanotechnology, providing more consistent information on this subject. We invite fellow researchers to contribute to *Pharmaceuticals* by submitting review articles or original research aligned with our topic, demonstrating recent findings on the proposed subject. The collection of manuscripts will be published as a Special Issue.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us. We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
