Plant-Derived Products in the Treatment of Internal Diseases: 2nd Edition

Message from the Guest Editors

In recent decades, tremendous progress has been made in the discovery of new drugs for the treatment of internal diseases, reflected in the considerable change in the prognostic and course of these diseases. However, importantly, severe or even life-threatening side effects mar the employment of these novel treatments. There are many instances of inappropriate employment of conventional drugs in the treatment of symptoms/disorders for which those drugs are not indicated. Many honest practitioners acknowledge that they should use something else but lack the trust in or knowledge about alternative therapies. A large segment of the population prefers alternative treatments, one of the most popular being herbal treatment. Individuals relying on alternative therapies are more amenable to health-promoting lifestyle changes. Let us, those that understand the considerable and insufficiently tapped potential of natural products, provide high-quality studies and reviews promoting the use of these products!

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
