Psychopharmacology: Recent Advances

Message from the Guest Editor

Psychopharmacology is a rapidly advancing field, with converging evidence emerging from both pre-clinical and clinical research. This special issue will bring together recent advances and topics of interest from animal, human and neuroimaging studies to highlight novel advances in the field. This special issue welcomes opinions, brief reports, communications, research articles as well as reviews and will cover any topic from animal models to quest for treatments.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.
