Therapeutics Agents for Neural Repair

Message from the Guest Editor

An insult on the Central Nervous System (CNS) usually leads to permanent and irreversible pathological conditions. Events, such as stroke, trauma or neurodegenerative diseases, have a strong impact on the physiological, psychological and social behavior of patients. This Special Issue is dedicated to “Therapeutics Agents for Neural Repair” and it is mainly focused on the use of pharmaceutical agents, administrated alone or in combination with other therapeutic approaches. I sincerely hope that you will be able to contribute a research manuscript or review article dealing with your research in this area of investigation. The proposed topics include, but are not limited to:

- Pathologies of the CNS
- Therapeutic Approaches
- Personalized medicine
- Biomarkers of disease
- In vitro/ex vivo studies
- In vivo preclinical studies
- Clinical studies

I look forward to your participation.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief
