Novel Therapeutics in Hematology

Message from the Guest Editor

Advancements in hematology, the medical field focusing on the study of blood, blood-forming organs, and blood diseases, have led to the development of novel therapeutics aimed at improving treatment outcomes for patients. These novel treatments encompass a wide range of approaches, each designed to target specific diseases or conditions more precisely and with fewer side effects. Therefore, this Special Issue aims to highlight basic, translational, and clinical research in the field and welcomes original research and review articles from physicians and scientists.

Guest Editor

Dr. Eleni Gavrilaki

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us. We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
