

Special Issue

Natural Products for Treating Hypertension and Blood Sugar

Message from the Guest Editors

This Special Issue invites investigators to submit preclinical or clinical studies focusing on pharmacological advances in the treatment of hypertension and diabetes. We will consider both original research and review articles. Potential topics include, but are not limited to, the following: Animal models of cardiovascular disease associated with hypertension and hyperglycemia.

Isolation and characterization of natural products with antihypertensive and antidiabetic effects.

Novel semi-synthetic drugs for the treatment of hypertension and diabetes.

Preclinical and clinical trials of plant-derived medicines as antihypertensive or antidiabetic agents.

Systematic or narrative reviews of natural products with antihypertensive or antidiabetic properties.

Synergistic effects of synthetic drugs and natural products in the treatment of hypertension and diabetes.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.
