Synthesis of Mimetics of Natural Compounds in Drug Development

Message from the Guest Editors

The synthesis of compounds that mimic the behaviour of natural compounds that have the same beneficial properties for the body is a very interesting and challenging field. Researchers around the world play an important role, especially in the pharmaceutical field, in the discovery of new compounds that can be used in drug development. The synthesis, characterization and behaviour of mimetic compounds is an area of research that is constantly growing and yielding important results, but there is still much to be done. Modern synthetic techniques can be applied to synthesize completely new active materials and molecules that mimic natural compounds. The purpose of this Special Issue is to focus on the synthesis and characterization of mimetics of natural compounds and their potential uses in drug development.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
