Feature Reviews in Biopharmaceuticals

Message from the Guest Editors

The therapeutic applications of biomolecules, carbohydrates, peptides and nucleic acids have attracted much attention in recent decades. They have proven to be excellent candidates for the development of specific drugs to fight a wide variety of diseases. Advances have been achieved in the development of therapeutic strategies based on biomolecules, as well as strategies for the administration of biomolecules as drugs. This Special Issue aims to show, through high-quality review articles, the current state-of-the-art research of this interesting field. Therefore, we invite authors to contribute high-quality review articles covering all different aspects of the application and use of biomolecules as therapeutic drugs.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us. We hope to handle your contribution to *Pharmaceuticals* soon.
