# **Special Issue**

## Ethnopharmacology in Latin America

## Message from the Guest Editor

In Latin America, the use of medicinal plants for primary healthcare is a common practice among the general population due to the lack of/insufficient medical attention and the lack of economic resources. Many of these medicinal plants remain to be studied for their toxicology, pharmacology, and chemistry. This Special Issue will be focused on the following topics: (i) ethnobotanical studies using quantitative tools, (ii) survey-based studies about self-medication/use of herbal products, (iii) preclinical and clinical studies with plant extracts and their active compounds, (iv) analytical procedures for the standardization of plant extracts, and (v) legislation and regulation of herbal products. The iournal *Pharmaceuticals* invites experts to contribute to this Special Issue with reviews and original research articles focusing on the pharmacology, toxicology, analytical chemistry, pharmacy, and ethnobotany of medicinal plants endemic to Latin America.

## **About the Journal**

## Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

#### Editor-in-Chief

#### Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Cièncias, Universidade de Lisboa, Lisboa, Portugal

## **Author Benefits**

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
