Glycomics in Drug Discovery

Message from the Guest Editor

The journal *Pharmaceuticals* is preparing a Special Edition entitled "Glycomics in Drug Discovery". This edition will focus on the role glycomics plays in disease discovery and development of therapeutics. The aim is to cover many different aspects of glycomics beginning with the technology employed in glycomic research through to the use of glycomics as biomarkers, glycomics as drug targets, and finally the role of glycomics in various pathologies (e.g., oncology, neurology, etc.). Please let me know if you are interested in submitting an article and I will work directly with you to make the process as enjoyable as possible!
