Special Issue

2D Layered Inorganic Nanomaterials in Drug Delivery and Biomedical Applications

Message from the Guest Editor

The goal of this Special Issue of *Pharmaceuticals*, entitled 2D Layered Inorganic Nanomaterials in Drug **Delivery and Biomedical Applications**, is to cover cutting-edge research in the field of 2D layered inorganic nanomaterials for drug delivery and biomedical applications. It is expected that the contributions of this Special Issue will provide deeper insight into our understanding of the complex relationships between the physicochemical properties and biological effects of 2D layered inorganic nanomaterials as a critical condition for developing nanoparticles with a balanced ratio between the desired effect and safety. This issue welcomes original research, short communications, reviews, perspectives, and conference reports with a focus on the synthesis, physicochemical characterization, and in vitro and in vivo applications for cancer treatment, but applications in other chronic conditions are encouraged, as well.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Cièncias, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
