Medicinal Plants 2020

Message from the Guest Editor

Dear Colleague,

Since ancient times, humans have been using plants for body care and health. The well-established use of medicinal plants is attributed to the Sumerians, even though archaeological studies have traced their use back to 60,000 years ago. Over the past century, the large production of synthetic drugs has obscured the benefits of natural sources in most of the western world. In the recent years, the “renaissance” of herbal sources has occurred drawing the attention of the scientific community; therefore, pharmaceutical research is moving towards the scientific validation of medicinal plants from all over the world. Authors are invited to submit original research articles, reviews, and short communications exploring recent advances in this field ranging from basic science to clinical studies. Topics include but are not limited to, innovative analytical method for the determination of phytochemical constituents, in vitro and in vivo evaluation of the activities, formulations of herbal extracts.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
