

Advances in Nanocarriers for Drug Delivery and Targeting, 2nd Edition

Guest Editors:

Dr. Eleftherios Halevas

Institute of Biosciences and Applications, National Centre for Scientific Research “Demokritos”, 15310 Athens, Greece

Dr. Chrysoula Kokotidou

Department of Materials Science and Technology, University of Crete and Institute of Electronic Structure and Laser (I.E.S.L.), Foundation for Research and Technology-Hellas (FO.R.T.H.), Vassilika Vouton, Heraklion, 70013 Crete, Greece

Deadline for manuscript submissions:

31 December 2024

Message from the Guest Editors

Nanotechnology has emerged as an area of active investigation, especially regarding its applications in medicine. Nanocarriers serve as viable and durable nanovehicles for the targeted delivery of bioactive compounds such as vaccines, genes, drugs, and other biomolecules, providing increased solubility and thus bioavailability, biocompatibility, physicochemical stability, protection from degradation, and controllable release profiles.

In this Special Issue of Pharmaceutics, we invite research, and review articles that advance our knowledge of nanosized drug delivery systems. Topics include, but are not limited to, theoretical and experimental research on the synthesis and development of functionalized nanocarriers or nanoformulations with targeting potential, their physicochemical and biological characterization, nanoparticle interactions with the immune system, in vitro and in vivo studies, preclinical and clinical studies, as well as safety issues regarding their production, handling, and disposal. We look forward to receiving your contributions.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Department of Pharmaceutics,
Ernest Mario School of
Pharmacy, Rutgers University,
Piscataway, NJ 08854, USA

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
