Message from the Guest Editors

Dear Colleagues,

In consideration of the recent attention and the growing potential that nucleic acids have gained, together with the demand for improving current controlled-release systems, we are pleased to announce the Special Issue “Nucleic-acid-Based Strategies and Nanotechnology Applications for Targeted Therapy”. The purpose of this Special Issue is to collect papers reporting on, but not limited to, oligonucleotide synthesis, biochemical and biophysical characterization of nucleic acids, new oligonucleotide-based delivery systems, as well as biomaterial and polymer development. Articles embracing originality and novelty will be welcome. We look forward to receiving your contributions.

Dr. Andrea Patrizia Falanga

Dr. Stefano D'Errico

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
