### Message from the Guest Editors

Dear Colleagues,

Due to pollution of our environment, unhealthy lifestyle, as well as stress, causing a variety of chronic disorders, currently, both, the medical and pharmaceutical markets are developing at an intense rate. People need new solutions. Therefore, it is important to consider what the new trends are, as well as possible novel perspectives. There are so many questions related to this topic. This is why recently, many groups of scientists are focusing on the preparation and advanced functional bio-hybrid materials for biomedical applications and drug delivery systems. We can distinguish different systems based on polymeric, organic, inorganic micro/nanocarriers or their combination with biopolymeric, polymeric or hydrogel matrices, which enables the controlled, sustained or modified release of active substances derived from natural or synthetic origin. In addition to the synthesis, physicochemical and structural properties, it is very important to determine the drug release profile and ensure a safe therapeutic concentration.

This Special Issue will allow us to share achieved goals and new approaches in designing smart drug delivery systems.

Deadline for manuscript submissions:

**closed (15 July 2023)**

## Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
