Message from the Guest Editors

Dear Colleagues,

Pharmaceutical sciences and technology has had a long and successful tradition in Germany, including all aspects related to drugs and drug products. This regional Special Issue aims to represent the vast variety of research within this field currently ongoing in Germany. We encourage scientists from academia as well as industry to submit their latest results primarily focused on but not limited to drug delivery, preformulation/formulation, and biopharmaceutics/pharmacokinetics, including 3R-concepts, pharmaceutical biotechnology, formulation design, manufacturing science, materials science, nanomaterials, pharmaceutical natural products, and personalized medicine.

In doing so, we hope to generate a broad collection of high-quality articles which demonstrate the powerful potential of scientists working in the field of pharmaceutical sciences and technology in Germany. However, apart from just collecting research results, we would be happy if this regional Special Issue could stimulate a lively discussion between the authors and the readers and help to further strengthen the scientific network.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
