closed (31 December 2020)

Message from the Guest Editor

Dear Colleagues,

To date, there has been growing interest in the use of selfemulsifying drug delivery systems (SEDDS) for the development of pharmaceutical dosage forms. SEDDS comprise an optically stable isotropic mixture of a drug, natural or synthetic oils, solid or liquid surfactants, cosurfactants, and/or cosolvents, which generates ultrafine oil droplets upon dilution with an aqueous phase under mild agitation. After self-emulsification in the presence of the aqueous phase, SEDDS provide an ultrafine oil droplet with a large interfacial surface area, which results in the incorporation of poorly water-soluble drugs into fine oil droplets, leading to accelerated drug absorption. In addition, surfactants and cosolvents in the formulations play an important role in improving the transcellular absorption of the drug by increasing the membrane fluidity and permeability.

This Special Issue aims to collect research and review papers on SEDDS applications in the pharmaceutical field. We invite researchers and drug developers to publish their original research or review articles with expert opinions and perspectives in the area of therapeutics.

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmaceutical Science*)
