Message from the Guest Editors

Dear Colleagues,

In a context where antibiotic resistance and the spread of new viruses are seriously threatening human health, the use of dendrimers and dendritic materials emerges as a promising strategy. Their versatility, multivalency, and on-demand design enable an efficient response to combat multiple infectious diseases, including those produced by bacteria, viruses, amoebae, and parasites. The Special Issue "Dendrimers and Dendritic Materials against Infectious Diseases" in *Pharmaceutics* (IF 4.421) aims to assemble cutting-edge strategies which address these serious wide-spread diseases.

Prof. Dr. Francisco Javier De La Mata

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmaceutical Science*)
