Message from the Guest Editors

Dear Colleagues,

The latest advances in nanomedicine are aimed at targeted delivery of drugs to tumor foci after intravenous administration with the possibility of avoiding excessive accumulation of toxic drugs in normal tissue. The recent successful application of nanostructured particles as delivery vehicles has demonstrated the superior potential of nanostructure-based technology for drug delivery in biomedicine.

This Special Issue addresses the multidisciplinary field and aims to discuss innovative advances in the design and applications of nanostructured systems for cancer diagnosis, imaging, and therapy. We invite authors to report their recently developed inorganic, organic, and composite nano/microparticles for the delivery of anticancer drugs, photosensitizers, siRNA, etc.

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
