Message from the Guest Editor

Dear Colleagues,

Pain is the fifth vital sign. Its presence significantly decreases quality of life. Due to a great variety of mechanisms involved in the process of pain, multimodal analgesia is the currently recommended pain management strategy. However, due to the diversity of mechanisms, pain is sometimes difficult to treat. In order to treat acute and chronic pain, pharmacotherapy plays a key role.

We are pleased to invite you to contribute to this Special Issue, titled “Drug Delivery for Pain Management”, which aims introduce and highlight all manner of drug delivery methods for pain management, including biopharmaceutics, biomedical sciences, cell biology, and interdisciplinary research, through both animal and clinical study. Original research articles and reviews are welcome.

We look forward to receiving your contributions.

Dr. Hue Jung Park

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
