Natural Innovations in Pharmaceutical Formulation: From Traditional Remedies to Modern Drug Carriers

Message from the Guest Editor

This Special Issue will delve into the exploration and application of natural compounds and materials in drug delivery systems. It will highlight the unique properties of natural substances that can enhance the efficacy, safety, and accessibility of pharmaceutical products. We aim to present the latest research findings and review the current understanding of natural ingredients in pharmaceutical formulations. The Special Issue will cover topics such as the identification and characterization of bioactive compounds from natural sources, the development of novel drug delivery platforms using natural materials, and the integration of traditional remedies with modern pharmaceutical technologies.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.
