

Special Issue

Medical Applications of Biologic Drugs

Message from the Guest Editors

The purpose of this Special Issue is to collect papers that offer novel insights in the field of biologics such as chemical, pharmacological, and toxicological properties, technological processes, and therapeutical activity. Key areas include design, preparations and characterizations of biologics, drug delivery systems, drug delivery challenges, formulation, pharmacokinetics, biopharmaceuticals, drug release and action mechanisms, in vitro and in vivo studies regarding their effectiveness or toxicity, therapeutic and clinical evaluations, etc.

Authors are invited to send manuscripts including original research or literature reviews referring to biologic drugs used in different medical domains.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.
