# Pharmaceutical Formulations with Antimicrobial Properties, 2nd Edition

# Message from the Guest Editors

Numerous studies on the systemic administration of antimicrobial drugs can be found in the literature. However, there are many challenges related to sitespecific drug delivery, unwanted side effects and even potential toxicity. In order to address these, it is necessary to explore new approaches to the administration of active principles with antimicrobial properties. Therefore, in this Special Issue, we will focus on new delivery systems for antimicrobial applications. with a major emphasis on topical and targeted delivery. Examples of antimicrobial applications include wound healing; the prevention and treatment of periodontal diseases and tooth decay; and treatment of ear, skin, urinary tract, vaginal or respiratory infections. The systems used to release antimicrobial principles could take the form of gels, hydrogels, emulsions, micro- and nanoparticles (spheres, capsules, liposomes) or nanofibers.

# **About the Journal**

# Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

#### Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, New Jersey 08854-8020, USA

# **Author Benefits**

# **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

# **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
