

Special Issue

Functional Polymers for Targeted Therapeutics and Gene Delivery

Message from the Guest Editors

Due to the broad types of available polymers and their possible modifications, polymeric materials play a great role in biomedicine. Polymers can have many applications, serving as materials for implants, antimicrobial agents, scaffolds for cell culture in regenerative medicine, as well as carriers delivering nucleic acids or other drugs. Some types of polymers have been shown to be effective in delivering nucleic acids (DNA and RNA), peptides, and other chemical compounds into mammal and bacterial cells. Especially the potential of some polymers for delivering nucleic acids makes them important non-viral vectors, with great potential for being used in many types of nucleic acid-based therapies. This Special Issue aims to highlight the use of polymers and nanoparticles for targeted nucleic acid delivery for gene therapy as well as in delivering other therapeutic agents in other types of targeted therapies. We look forward to receiving your contributions.

Guest Editors

Dr. Łukasz Sieroń

Department of Molecular Biology and Genetics, Faculty of Medical Sciences in Katowice, Medical University of Silesia, 40-055 Katowice, Poland

Dr. Emanuela Fabiola Craparo

Laboratory of Biocompatible Polymers, Department of Biological, Chemical and Pharmaceutical Sciences and Technologies (STEBICEF), University of Palermo, Via Archirafi 32, 90123 Palermo, Italy

Deadline for manuscript submissions

31 December 2025

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
