

Special Issue

Nano-Drug Delivery Technologies for Cancer Immunotherapy

Message from the Guest Editors

We are pleased to invite you to contribute to a Special Issue of *Pharmaceutics* entitled “Nano-Drug Delivery Technologies for Cancer Immunotherapy”. As a novel anti-tumor modality, cancer immunotherapy has made significant clinical progress in recent years by activating the body's immune function to target and efficiently eliminate cancer cells. Meanwhile, the use of nanotechnology for delivering cancer therapeutics has also achieved fruitful clinical translation; its main advantages lie in the abilities of nanocarriers to optimize drug distribution and provide a platform for multi-modal theranostics, realizing targeted and synergistic cancer therapies. This Special Issue aims to publish research or reviews on novel drug delivery nanotechnology (such as new nanomaterials, new nanodrug synthetic approaches, or optimized drug loading methods) for immunotherapeutic drugs, as well as the original anti-cancer mechanisms based on immunomodulatory nanoformulations. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
