Biomaterials-Based Drug Delivery Systems in Regenerative Medicine

Message from the Guest Editor

Dear colleagues, In this Special Issue of *Pharmaceutics*, we invite authors to submit original research articles or reviews that explore the intersection of biomaterials, drug delivery, and regenerative medicine. We are particularly interested in submissions that address the following topics:

- Innovations in tissue engineering approaches integrating drug delivery systems;
- The role of biomaterials in stem cell therapy and regenerative applications;
- Advanced drug delivery systems for regenerative medicine, including nanoscale delivery vehicles;
- The combination of gene therapy with biomaterials for enhanced tissue repair.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
