

## Special Issue

# Advances and Challenges in Nasal Formulation Developments, 3rd Edition

### Message from the Guest Editor

Intranasal administration has the potential to target various tissues (e.g., brain targeting, lymphatic delivery, mucosal vaccination, and transmucosal absorption). The development of nasal formulations is difficult due to factors such as their retention time in the nasal cavity, dose restrictions, the difference between animal species, and individual variations in nasal drug absorption. This Special Issue will address the advances being made in various forms of nasal formulations, including in vivo and in vitro evaluations of the permeation and disposition of drugs, drug dissolution from formulations, and the development of novel dosage forms and excipients for nasal applications. Additionally, it will include studies on drug targeting from the nose to brain/lymphatic tissue, nasal vaccination, and mucosal absorption. Original research papers and review articles are welcome.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko  
Department of Pharmaceutics, Ernest Mario School of Pharmacy,  
Rutgers University, Piscataway, NJ 08854, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
