The Delivery of RNA-Based Therapeutics: New Strategies in Cancer and Gene Therapy

Message from the Guest Editors

Ribonucleic acids (RNAs) are important molecular structures that are involved in many functions in cell machinery, including protein synthesis, RNA editing, gene regulation, and RNA interference. Since the fifties of the last century, discoveries are in progress with great promises in RNA therapeutics. Thus far, several RNA-based therapeutics, including antisense oligonucleotides, RNA interference, RNA aptamers, and messenger RNAs, have been approved by the FDA. Nevertheless, their delivery is limited to their encapsulation in lipid-based nanoparticles, in addition of targeting moieties or direct delivery without any modifications. Therefore, the delivery of RNA therapeutics is one of the most controversial and researched topics in RNA therapy. This Special Issue aims to discuss innovative delivery systems and techniques in RNA-based therapeutics to fight cancer and other diseases. In this Special Issue, original research articles and reviews are welcome. We look forward to receiving your contributions. Dr. Lamiaa M.A.Ali, ,

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
